neumi®

Powered by HydraStat™ Technology.
The future of hormones is Hers.

Product Overview

Every woman knows about the inconveniences that cycles and hormone changes can bring into life. Experience rapid results through our HydraStat™ Delivery. Our molecule-sized ingredients, wrapped in water clusters, are small enough to be absorbed fully by the human cell, which is right where you need them!

Superior Absorption Through HydraStat™ Technology

Hers uses our proprietary HydraStat™ technology to break down its active ingredients into tiny particles, that become bioavailable within seconds. Fragile ingredients like Glutathione have been expensive to get into the bloodstream- until now.
